ANALYZE YOUR GAME

Know more about your game to better perform. Analyze all aspects of your game: your style, new skills, when your backhand is getting better, when you break a personal record or even an international one.

[More Info](#)

FOLLOW YOUR REVOLUTION

Track the progression of your game. Get an easy and detailed overview of your development by clicking on your past sessions to see where you were, and how you have improved.

[More Info](#)

IMPROVE YOUR SKILLS

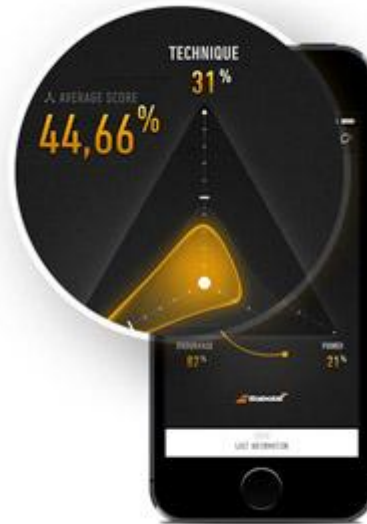

Get an easy look into which strokes you often use, and which ones you haven't implemented into your game. Vary and improve your style to unlock new 'Skills' and get to the next level.

[More Info](#)

CHECK YOUR TENNIS PULSE

Get an overview of your tennis game with 'Pulse': a dynamic interface that changes according to the power, the technique and the endurance of your game. 'Pulse' changes according to your game improvement and motivates you to play more.

[More Info](#)

COMPARE YOUR PERFORMANCE

Compare your performance to the rest of the Babolat Play community. Compare your 'Pulse' and other data to a friend's on a one-to-one level.

A UNIQUE RACKET

The Babolat Play Pure Drive racket looks like a regular racket on the outside. However, sensors integrated into the handle allow players to have access to a lot of information: power, impact locator, type and number of strokes (forehand, backhand, serve, overhead smash),...
